

TIMBER SERIES WOOD GRAIN FINISHES

Brown Timber

Copper Timber

Gray Timber

Tan Timber

White Timber

When the performance of metal is required but the look of wood is desired, Petersen's Timber Series wood grain finishes are ready to dazzle. Petersen's PAC-CLAD wood grain patterns will convince the casual observer that metal is actually wood. A lineup of five wood grain patterns ensures creative design and flexibility and can deliver a finishing touch to any project.

PAC-CLAD PVDF Timber Series wood grain finishes combine the beauty of wood with the durability of metal. The patterns are nearly indistinguishable from actual wood, and they provide architects and designers with creative flexibility on highly functional surfaces. Wood grain finishes are available on all PAC-CLAD wall panels. Consult PAC-CLAD representative to discuss warranty, lead time and related issues.

 Printed colors are not exact representations of actual PAC-CLAD Wood Grain Finishes. Please ask a PAC rep for color samples before making a final selection.

PRODUCT FEATURES

- ▶ Steel: 24 gauge
- ▶ Aluminum: .032

SIMULATED FINISH TESTING

- ▶ ASTM D 3359
- ▶ ASTM D 4145
- ▶ ASTM D 3363
- ▶ ASTM D 2794
- ▶ ASTM D 968
- ▶ ASTM D 523
- ▶ ASTM B 117
- ▶ ASTM D 2247
- ▶ ASTM D 3361
